Useful Information

HDPE

Materials

LDPE: Low Density Polyethylene.

MDPE: Medium Density Polyethylene,

HDPE: High Density Polyethylene.

ABS: Acrylonitrile butadiene styrene.

PP: Polypropylene.

Zintec: Zinc coated steel.

All of these materials are recyclable

End-of-life Recycling

Your recycling bins should last many years, but please remember that at the end of their life the bins can also be recycled.

For a list of recycling facilities and companies in your area, visit www.recycleatwork.org.uk.

WRAP

WRAP (Waste & Resources Action Programme) is a government-funded organisation set up to prevent waste and increase recycling in the UK. As part of their policy, WRAP have developed a UK standard iconography and colour coding for recyclable and non-recyclable waste. www.wrap.org.uk

Green Warehouse recycling stickers make waste streams clearly identifiable, making recycling easier and quicker.

As well as being eye-catching, our stickers are durable and can be used both indoors and outdoors.

Green Warehouse recycling stickers

Specifications:

Size: 10 x 15cm or 20 x 30cm

Material: Polypropylene

Country of manufacture: UK

Less harmful than vinyl-based stickers, Green Warehouse recycling stickers are printed on polypropylene using inks free from heavy metals, Volatile Organic Compounds (VOCs) and solvents.

The stickers are WRAP compliant (except for those marked with *) using graphics and colour coding designed by WRAP to facilitate waste sorting and encourage recycling.

The image shows three Slim Jim recycling bins in an office environment. The bins are light blue with different colored lids: red, blue, and yellow. The red bin has a red lid and a red label with a recycling symbol. The blue bin has a blue lid and a blue label with a recycling symbol. The yellow bin has a yellow lid and a green label with a recycling symbol and the text "mixed recyclables". In the background, there is a blurred office scene with people working at desks with computers.

“The Slim Jim bins meet our requirements of a bin that is strong and durable enough to survive in an industrial environment as well as looking smart enough for the office and reception areas. ”

I.R. - British Sugar PLC

The Slim Jim Bin

Our best-selling recycling bin, the Slim Jim bin features outstanding quality and durability.

Specifications:

60 litre bin: Height: 63cm Width: 27.9cm Depth: 58.7cm

87 litre bin: Height: 76.2cm Width: 27.9cm Depth: 58.7cm

Base Material (Grey): Low Density Polyethylene (LDPE)

Base Material (Blue): 30% recycled LDPE

Lid Material: Polypropylene

Country of manufacture: USA/UK

Liners are available for this product

Base colour:
